

FLOWER POLICIES

Oakdale Memorial Gardens asks that lot owners, family and friends kindly adhere to the following policies concerning the placement of flowers and /or other grave decorations:

1. We ask that only live or silk arrangements be used. Plastic flowers are not allowed, for if a mower were to hit them, they become a projectile and are very dangerous to people close by.
2. We ask that all flowers placed at gravesite for the spring and summer seasons be in an approved container. This would be a permanent vase (a display is in the office for your convenience, although you are not required to purchase it from us). We ask that you not use any tin cans, glass bottles or vases, statuary, crockery, vigil lights, ornaments, Styrofoam, plastic, or wire items. These items can be very dangerous and are a maintenance hazard.
3. For holidays or special occasions, we do allow special arrangements to be placed on graves that may not meet our policies. We can allow these arrangements to be left on the graves for three days, then they will need to be picked up. Please notify the office before placing such arrangements so we know the date you placed them and we won't remove them.
4. For those people who have a very limited income, we do have special options. Check with the office for details on these options.
5. During the winter season, we welcome artificial wreaths. No fresh or live greens are allowed.

It is not our intention to keep people from placing flowers on graves. It is our intention to keep Oakdale Memorial Gardens beautiful and enjoyable for all people. Our flower and grave decoration policies are there to keep the grounds maintainable and as pleasant looking as possible. If you have any questions or comments, please feel free to stop in or call our office. You are important to us and we want to keep our lines of communication open. We are here to be of service to you, let us know what we can do for you.
